# What is Bustabit Buster?

Bustabit Buster scripts are designed for bitcoin gambling sites such as Bustabit. There are many other websites similar bitcoin gambling sites which these scripts can be used without a problem. It works perfectly without a problem in all those similar sites. These scripts are very easy to understand and really easy to use. Imagine how profitable your account would become if you had a script like Bustabit Buster which can skip rape trains and gain more profits in a green train.

These scripts coded and developed to put your frustration, losing to an end that most gamblers face when they are gambling in Bustabit or related sites. Most powerful codes embedded in to these scripts. Months of testing have been carried out before it is publically available.

Bustabit Buster contains 5 different strategies specially created for bet safely and grow your profit easily and accurately. It's a perfect solution for everyone who are using bitcoin gambling like Bustabit. These scripts gather history of last rounds to put a bet and make sure to recover the amount if you lose a bet without risking your account balance. What you have to do is just put one of these profitable scripts and let your account grow.

These scripts are made by looking at months of round histories and analyzing data. Every script is tested more than a month to be proven. You can be 100% confidence that Bustabit Buster scripts are provable and guaranteed return your investment in a short time period.

You might be wondering these scripts won't do any good. Sooner or later they are going to fail. Well, it does. But you will be gathered more than 10 times what you have invested to make some profit. So losing is a part of winning. We made sure that losing is lower than the profit you are making. Many man hours were destroyed to make these profitable scripts to make you profitable.

Some would ask if these are profitable as we say, why don't you use it without selling it. Of course we are still using it on our accounts and making good profits while sharing it with others. Stick to our plan to make more profit without losing every day. Prepare to be shocked! These are the real screenshots taken from our accounts. This is what our scripts can do to your accounts.

## How BitBuster is different from other scripts?

That is a really good question. First of all, we know that there are many scripts available to use. But what they do is just put bets and recover it by betting until your account is being zero. Think like this, there is a popular script use 1.33X multiplier. Which means every time you lose a bet, next bet will be 3 times bigger than your last bet. Count how many bets you can do before your account is blown. We have that script do the same thing EXCEPT the last part "Blowing your account anytime soon". As mentioned earlier we put many hours and hours to analyze how everything work before creating every script and added those analyzes to the script to be perfectly safe and profitable. It will give you amazing results! You don't need to be an expert to use it. It has been designed so that even your little kid can use it and make profit for you. It's super easy and super profitable!

## Where you can you use BitBuster?

BitBuster scripts are usable in most bitcoin gambling sites such as busatabit, csgocrash and similar sites. We made these profitable scripts work perfectly without bugs on those sites. The best thing is scripts are fully customizable. This is why we need everything to be simple. If things are more complicated, it's really hard to be maintained and understood. So, strap in your seatbelts as you are up for the ride of a lifetime!!

Here is all you need to know
